Professional Summary

Experienced Professional with 3+ years of experience in data analysis, SQL, Python, and Power BI. Adept at extracting meaningful insights from large, complex datasets to inform business decisions. Strong analytical, stakeholder management and problem-solving skills with a passion for data-driven decision making.

Technical Skills

Languages and Databases: Python, SQL/MySQL, DAX

Tools and Technologies: Power BI, Machine Learning, Jupyter Notebook, Visual Studio Code, GitHub

Frameworks: Numpy, Pandas, Seaborn, Matplotlib, Scikit-Learn

Other Skills: Microsoft Excel, Debugging, Data Analysis, Stakeholder Management

Experience

Tata Consultancy Services

Data Analyst

Aug 2021 – Present

Noida, India

- Developed a comprehensive **Power BI** dashboard to track key KPIs, including monthly and quarterly Jira fixes, measuring product performance, trend analysis over time, and compliance metrics in a tabular format, enabling management to monitor and improve performance effectively.
- Designed and deployed a **customer churn prediction model** using Python and TensorFlow for a leading banking client, achieving **92%** accuracy, insights enabled targeted retention strategies, reducing churn by **10%** and boosting revenue by **5%**.
- Proactively developed a **Power BI dashboard** for the Finance team to visualize key KPIs (net profit, gross margin, net sales, etc.) enabling region- and segment-level insights and benchmark comparisons which contributed to a **15%** increase in annual revenue and **10%** rise in net profit, earning recognition from senior management.
- Proficient in handling various data formats including **CSV, SQL, JSON, WEB, and SharePoint**.
- Leveraged **SQL, Excel and Python** to process and analyze complex datasets, delivering a high-quality project that enhanced data accuracy and streamlined **client operations, satisfaction and usability**.
- Developed and executed automated test scripts written in Python, Perl and Typescript to validate OS functionality, reducing testing time by **2 hours**.
- Worked closely with a multidisciplinary team, including software developers, quality assurance engineers, and project managers, to align with software development efforts with project goals and timelines.

Projects

Ad-Hoc Insights - Consumer Goods Domain | **MySQL**

- Implemented a targeted SQL project to enhance sales performance.
- Leveraged MySQL to uncover insights for 10 ad-hoc Business Questions, guiding data driven decisions.
- Boosted sales by an impressive **7%** through smart data querying, in line with the organization growth goals.

Electric Vehicle Market Analysis - Automotive Industry Domain | **Power BI**

- Analyzed Indian EV market data, leading to a **20%** revenue increase for AtliQ Motors.
- Identified high-performing states, improving sales by **15%** in targeted regions.
- Guided focus on high-growth areas, resulting in a **12%** CAGR improvement over two years.

Certifications/Awards

- Microsoft Certified Azure Data Fundamentals [[Microsoft](#)]
- Microsoft Certified Power BI Data Analyst Associate [[Microsoft](#)]
- Microsoft Certified Azure Data Scientist [[Microsoft](#)]
- Data Analytics and Visualization Job Simulation [[Accenture](#)]
- Received multiple appreciations and high-performance Band "A" for the valuable contribution at TCS

Education

JECRC College

Bachelor of Technology in Information Technology

Aug 2017 – Sep 2021

Jaipur, Rajasthan
